As we walked through the doors as freshmen and heard Mr. Peabody say the three most important words, "Do the right thing," we knew we were in high school. While we were carrying all of our books through the halls as freshmen, graduation seemed like a goal we would never reach. Now as our high school career comes to a close, it seems that life at the regional has gone by all too quickly. As a class we have witnessed many tragedies, from the shocking columbine shootings to the disastrous day of September 11th, but we pulled together and surmounted the dramatic events. Throughout our brief journey in high school we have celebrated many events including the Patriots and our own team winning the Super Bowl, getting our licenses and passing MCAS. Although we will never forget the incidents we have overcome, or the moments we have celebrated; going through them with this class...that's what makes these moments unforgettable.

Younger Years

As a new chapter begins in our lives, we begin to wonder where the time went, the time of our childhood. Everything was simple, and the worst of our worries were whether we would spend our allowance on Pogs or Giga Pets. Every little girl wanted to be a Princess and every little boy wanted to be a Power Ranger. While New Kids On The Block had hits like "The Right Stuff," we still had to love Paula Abdul’s, "Straight Up." We all wanted to be stars on "The Mickey Mouse Club," and "Star Search," and we all read "The Babysitter’s Club," and "The Box Car Kids." We remember when our best friends were our next-door neighbors, and our parents were our superheroes.

At the time, growing up seemed so rough, when, in reality, we had it made. Making the transition from Elementary School to Jr. High was easy compared to coming into B-R when we were introduced to another town as big as our own. Through the years, we have all blended in with one another to form one, large regional school. Since coming to B-R, we have all grown wiser, have become a little stronger, and have realized that "The Good Ol’ Days" were unforgettable.

Throughout our four years at B-R, we have formed strong bonds on and off the playing field. B-R always has a competitive edge no matter what sports team is playing, and we have conjured the Old Colony League year after year. Whether we win or lose, it never matters, because the friendships we take away from the experience is what matters the most.

Whether you were a fan or a player, you contributed greatly to the winning. The fans never ceased to show up with their Trojan spirit. At the games, meets, and matches, someone from B-R was there cheering you on. Once again, we hope to repeat the success that B-R has had in the past for many seasons to come.

Whether we want to or not, we can all say that we have
learned a lot at B-R. We have all
grown up since our Romeo and Juliet
days freshman year. Through all
the homework and last minute study-
ing, our four years at B-R have
finally paid off. As much as everyone
hated studying moles in chemistry
class, or difficult algebra prob-
lems, we can now be proud of what
we have accomplished. We are so
lucky to have teachers who prepared us so well for the
MCAS and SAT’s. Although the work seemed tedious at
times, the endless lessons and problems our teachers
prepared us with helped us through what we thought
would be impossible. All of our success we owe to the
B-R faculty who have helped push us in the right direc-
tion. As we are ready to enter a new chapter in our
lives and race new challenges, we can all look back at
our days at B-R and remember the unforgettable experi-
ences that will last a life time.

In high school, friendship is everything. When we first came to B-R, we depended on each other completely. Everything was new; the football games, dances, Pep Rallies, and parties. By being together, and following the example of the upper classmen, we have become a part of something great. As the years have gone by, we have supported and experienced hard times such as 9/11, losing the superbowl, a cancelled Pep Rally, cramming for tests, and all the breakups and tears that came along with them. Together, we have shared laughter, Jr. Prom, camp fires, tons of pizza, winning games, good times on Crane Street, and most importantly being together. Now that we are seniors, our experiences together have built strong ties and lifelong friendships. As we leave high school and begin a new phase in our lives, we will always carry the memories and friendships that we made together at B-R.
Special Moments

Through four years of school work and finals, MCAS and special projects, we sometimes see a window onto a world where our rules don’t apply. It is a world where we can take a moment and hold it forever. Fun and Friday night football games, proms and parties where we can be together and even if it is just for a while, we can be young. We will always remember these special moments, always.

Activities

The variety of clubs and after school activities offered at B-R are only some of the ways students can get involved. The choices range from Ski Club, to the Future teachers of America, and there are many more in between. Students can become involved with community and state causes, like the Walk for Breast Cancer and Breakfast with Santa. They can get the satisfaction of seeing their work published in the Regional Sound Unites, or the Creative Writing Club’s literary magazine, Asylum. All activities at B-R bring students of all grades and interests together.

Whether it’s joining in on the spirit of the students at the Pep Rally, or helping the residents of Bridgewater no Raynham in the BRidge program, we have all united to make our high school experience unforgettable.

Looking back on these last four years, it feels good to
know that we made it, we're finally seniors. When we
first entered the building, Mr. Peabody told us these
years would fly by. When we think about it, we realize
he was right. Each year has brought us new hurdles to
clear and problems to solve, but we also had good
times along the way. Starting freshman year with the new milleni-
um gave us the momentum to start a new era of our lives. We
immediately felt on top of the world as "high-schoolers" but it was
shortlived as the upperclassmen quickly put us in our place. We
soon realized that being a freshman meant starting back at the
bottom and waiting another three years until we were at the top
again. At the time, it seemed so far away when really it was just
around the corner. At the beginning of our sophomore year, the
tragedy of September 11th drew us closer together and taught us
to appreciate what we have. Through our trials and tribulations of
MCAS, SATs, and the college application process, we have persevered
and will be graduating before we know it. Together as a
class and as individuals, we have all encountered our own chal-
lenes, but when all is said and done, we made it. Congratulations
class of 2004!

In Memoriam
Jacob Hagman
January 28, 1985-January 8, 2004

On January 8, 2004, Jacob Hagman, a well-known, kindhearted young man passed away. We will remember him with his dog Magnum, and Mr. Adam Foster together in the hallways laughing and enjoying the experience. As a member of the Class of 2004, Jacob focused most of his energies in school on the subjects he really loved, science and Principles of Technology. Fueled by his passion and gratitude for all the technological wonders this world had to offer him, Jacob joined the FIRST Robotics Team. He and Magnum and Mr. Foster attended several trips with the team. He was also a Life Scout in the Boy Scouts of America and spent years as a good will ambassador for the Massachusetts chapter of the Muscular Dystrophy Association. Jacob was diagnosed with muscular dystrophy when he was very young, but he dealt with the challenge and became an inspiration for all who met him. It didn’t matter if it was the hottest day of the year or the coldest winter morning, Jacob was at school raring to go. For all of us who knew him, and for many who will meet him through these pages, we will remember Jacob not as a student, but as a teacher of the life lessons of patience and preservation.

Jacob—My Hero and Friend

You brought so much Joy to all who knew you
And were
Courageous, brave, and bold
our lives were touched forever
you’ll be remembered through all our stories told

We’ve been best friends since grade four
eight years is a long
long
long time
enough to share our hopes and dreams
and make memories to last a lifetime

I’m proud to have called you my “brother”
now you’re an angel
smiling down on us
you touched the hearts of family and friends
May you find peace and love in Heaven
we will meet again.

Baby, Look at Us Now!
Remember watching the classic shows “Teenage Mutant Ninja Turtles”, “Care Bears”, and “Sesame Street?” How about the pain of losing your first tooth and having the tooth fairy’s gift make it all better. Our baby years were unforgettable, but now they must be put aside as we step into our future.

Junior Prom

When we look back and reminisce on our junior year of high school, May 16, 2003 stands out as a night we will never forget, the night of our Junior Prom. The prom began with friends and family gathering together to take pictures and capture the moment. The night moved on to the West Bridgegwater Canoe Club, laced with soft glowing lights and sparkling chandeliers to reflect the theme of the prom...On The Edge of a Dream. As the girls danced the night away to songs like "Girls Just Want To Have Fun" and "Brown Eyed Girl" in their elegant gowns, the guys strutted their stuff in their flashy tuxes and top hats. The night was brought to an end when Kevin MacDermott and Meghan Daniels were crowned Prom King and Queen. The B-R pep-rally marks the end of spirit week, and that means only one thing... the B-R vs. Silverlake Thanksgiving day football game. Everyone who was in the gym was screaming with all their might as the football players and cheerleaders put on another spectacular show. Senior Holiday Party

Hey, Santa, button your coat and hold onto your hat, the North Pole has been taken over! On Thursday, December 18, 2003, the senior class came together to celebrate the holidays. Candy canes, snowmen, elves, and many more decorations made the lunchroom into a holiday extravaganza. However, some brought a little more than holiday spirit. An array of interesting characters seemed to have gotten their party dates mixed up. Straight from the trailer park came the Hunter Hicks followed by "Mr. Lennon" and his crowd pleasing speech. But nothing can compare with the sight of Tigger and Eeyore from the Hundred Acres woods and the pineapple living Sponge Bob and his best pal Patrick. The future of our school lies in the hands of our younger friends. As we glance at them, we are reminded of our own experiences that they now face: algebra, getting drivers licenses, and MCAS. We are also reminded of how fast these years have come by. Now we must pass the torch to our siblings and younger friends, hopefully teaching them to enjoy their years at the Regional and savor the memories. We wish good luck to the classes of '05, '06, '07.

If you ask anybody to describe B-R athletes they would say "winners." Whether the game, match, or meet ends in our favor or the opposing teams favor, B-R athletes are still winners. On and off the field B-R athletes are dedicated to their work and determined to do their best, but what makes B-R athletes stand out above the rest is our excellent display of sportsmanship. No matter what sport it is or what season we're in, B-R teams work their hardest to win and take home an Old Colony League championship, but the goal that means the most is good sportsmanship. When we grow up and tell our kids about our life in high school, we will not be telling them the score of the third game in our senior year, or how many points we averaged in our junior year. We will be telling them about the friends that we made and all the fun we had. In the end, it's not about winning or losing, it's about the memories.

In the 2004 season the Boys’ Varsity Football team tackled themselves into an 8-2-1 record; good enough for first place in the Old Colony League. Led by team captains, Matt Benvie, Mike Cronin, and Frank Pacheco the boys were inches away from yet another post-season run. With Coach Buron drilling discipline and a hard work ethic into his player’s heads, he did not expect anything less. Next year Coach Buron will have to do without his three senior captains and the rest of his senior squad, U.D. Nwosu, Brett LeClerc, Chris Joyce, Jon O’Brien, Bryan Bissonnette, Steve Yelle, Kevin MacDermott, Dustin Crossman, J.P. Morrison, Ryan Hennessy, Dean Guasconi, Curtis Harrington, Sean Gilrein, Shaun Wilcox, Alec Tollvalsa, Jim Freyermuth, Matt Mahoney, Keith Nicholson, Kyle Ross, Matt Beane, Gavin Killea, and Collin Florence. Great job girls and good luck to the Seniors and the teams to come!

The 2003 Boys' Soccer team had a very successful season. Led by Captains Brian Sousa and Chris Smerz, along with a band of nine other seniors, made the race for OCL Champs close until the very end. The Trojans finished with a record of 9-8-2, including a memorable tie in their last regular season game under the lights against rival Silver Lake. Coach George Pacheco returned after a two year absence, however his season was cut short when the team was bounced from the post-season by Stoughton in the first round. Last year's production of Grease was a hit as all three nights of the show were sold out. Seats were set up in front of the stage and people lined up to see the show. On May 13th, 2005, Grease debuted to a sold-out crowd. Michael Vacca played Danny in his first B-R role and Emily Gourdeau returned to the stage for the third year in the role of Sandy. Other cast members included Gavin Kellea as Kenickie, Zoe Furtado as Rizzo, Michelle Morland as Doody, and Alexi Specter as Frenchy. Grecie Webster as Roger, Jessica Pianci as Jan, Julie Wood as Marty, Tyler Clancy as Sonny, Jordan Webster as Eugene, Kerry Wittaker as Ms. Lynch, and Laura Hubbard as Patty Simcox. The show's Thoroughly Modern Millie was played by the dancing duo Foster. We cannot however look past the hard work and dedication put in by the crew. Ms. Mary Baran directed and choreographed the amazing dances and intricate scenes. Ms. Janice Iser conceived and directed the cast, and Mr. Jack Pianci designed yet another spectacular set with the help of the dedicated set crew. The musical could not have happened without Ms. Whitt's dedication and organization of the cast, crew, and staff. She has been with the musical for over fifteen years as Production Manager, Assistant Director, Producer, and Director. Thank you to all the cast, crew, and staff for an amazing performance that will go down in B-R history.

The first year of Habitat has been off to a great start. The club was started by an inspired student, Jennifer Hubley, who after a trip to Mexico where she assisted in building housing for families with little or no income, felt the need for B-R and students like her to get involved. Habitat for Humanity is a non-profit organization that helps eliminate homelessness and poverty by aiding and providing housing for families in need. Here at Bridgewater-Raynham, we haven’t built any houses yet, but we are doing our best to help by raising money and becoming involved with our surrounding communities. Our faculty advisor is Ms. Grublin, and we have an excellent committee, Brittney Nichols, Caitlin Greely, Mark Madonna, Ashley Haynes, Matt Grein, Kate Turner, and Mike Vachon, who make important decisions and help spread Habitat news. With the help of Mr. Kostka, we have been able to become involved in the new and upcoming build in Kingston. This year our club has helped raise over $2,000 dollars for that build, by sending our members to the Independence Mall to run the Santa Train. Twenty percent of the profit goes to Habitat. We have been holding weekly meetings and have big plans for the rest of the year. By the close of the 2003-2004 school year, our club plans on designing T-Shirts for fundraising, organizing the “Walk and Rock” walkathon, building, decorating and selling birdhouses for South Shore Habitat’s Annual Birdhouse Fundraiser, and making and delivering lunches to workers on the worksites. We have had a great first year, and we hope their are many more to come.

1. President and founder, Jen Hubley and Vice President Britney Nichols plan bird house painting.
2. Ms. Grublin and Jen Hubley present possible fundraiser ideas to the club.
3. Members of Habitat For Humanity Mike Pappas, Sarah Correia, Ashley Nichols, Rachael Dacey, Deanna McGillis, and Brian Sousa practice for the walkathon.
4. Members of Habitat discuss ideas for T-Shirt designs.
5. Deanna McGillis and Rachael Dacey perfect their hammering skills for an upcoming build.
6. Habitat For Humanity’s Executive Committee: Mike Vachon, Matt Grein, Mark Madonna, Ashley Haynes, and Caitlin Greely. Missing from picture: Kate Turner.
1. "Head and eyes up!" Steve Hill pushes himself to the limit.
2. Collin Florence spots Dean Guasconi while he does his dead lift of 405 lbs.
3. Billy Manning benches with all his might.
4. Kevin Pieper spots Brett LeClerc as he presses the house.
5. Jason Flannery works on his squats.
7. Dana Lopes correctly squats while Tom Witherell safely spots for him.
8. In training for the basketball season, Kevin McDermott does his routine set of crunches.

The Intramural Weight Room is utilized by students who want to physically improve themselves. These young men and women receive no athletic letters, no newspaper articles, no public recommendation. For the above reasons, Mr. Lennon, the weight room coach, "loves these young people!" These are our leaders who work hard on a continuous basis to improve themselves. For Mr. Lennon, "Life does not get any better than spending my afternoons with these people in our weightroom."

Front Row: Bill Manning, Brett LeClerc, Kevin Pieper, Mike DeVincenzo, Kevin MacDermott, Chris Smerz, Nick DeVincenzo, Collin Florence, and Dean Guasconi.
Back Row: Mr. Lennon

Science Olympiad

"You think you know, but you have no idea," this is the yearbook entry of Science Olympiad. The team participates in five meets, each meet consists of four events. Every March there is a state meet which includes events that span all branches of science. Mrs. Anania is the advisor for the Science Olympiad Team. The officers are Diana Smith and Jess Donovan (Co-Presidents), Danika Erikson (Vice-President), Jill Peterson and Laura Adduci (Co-Treasurers), and Sehrish Abid and Lily Liu (Co-Secretaries). We have a lot of fun at weekly meetings, and each year we try to have a bowl-a-thon at an end of the year party. So now you know!

1. Before winning her gold medal, Danika Erikson tunes her homemade cello.
2. Ann Marie Illsley and Danika Erikson prepare to win gold medals for playing homemade instruments at the Stoughon meet.
3. Laurie Soderbom and Liz Durrigan won the medals for their mastery of "Remote Sensing."
4. After another successful Science Olympiad meet, Sehrish Abid, Lulu Li, Lily Liu and Laurie Soderbom celebrate.
5. Before the bottle rockets competition Kim Herrington and Sehrish Abid make final adjustments.
In its ninth year, TJE is still as enthusiastic as ever! The team traveled to regional competitions in Trenton, New Jersey and Long Island, New York, as well as the National Competition in Atlanta, Georgia. They took the arenas by storm, cheering loudly for an awesome robot. From New Jersey, they brought home the second most prestigious award in FIRST, the Engineering Inspiration Award. In Long Island, the team earned the Judges’ Award and semi-finalist status! Year #9 has been incredible for TJE:

Each day staff members of Unita's, The Regional Sound, and the weekly calendar put in time, effort and creativity to bring out the best in B-R publications. It all begins each week with the school calendar. Calendar editors Amanda Hall and Amanda Marr gather school and sports events to put together an informative reference for students and teachers. Kerry Whittaker and Peter Dragos have worked extremely hard on the Regional Sound in an effort to present the school with a polished and professional newspaper. Since the end of the 2003 school year the quad-editors, Sarah Correia, Stacy Berard, Cassie Thielker and Danielle Prescott have stressed, worked overtime, and have had a real life experience working with staff members and deadlines. We have all worked diligently to make the publications here at B-R the best they can be, and hope other students have appreciated and enjoyed them and will continue to do so for many years to come.

1. Amanda Marr and Amanda Hall take pride in making the weekly calendar.
2. Sarah Correia puts together layouts for the next deadline.
5. Graham Specter works on an article for The Regional Sound.
6. Sketching cartoons for the yearbook, Adam Courneyer puts finishing touches on his work.
7. Seeing what material can be used for the newspaper, Peter Dragos and Laura Yarate read over the articles.
8. Danielle Prescott proofreads Holiday Party text on the computer.
9. Cassie Thielker works on the Sports Division while Danielle Prescott makes suggestions.
10. With careful attention to detail, Mike Pappas edits pages ready to submit.
11. The quad-editors, Danielle Prescott, Cassie Thielker, Stacy Berard, and Sarah Correia put their heads together to come up with a caption for this picture.
12. Putting in many hours of work, Kait Kilroy and Casey Bucek read through senior messages one last time.
13. Sean Daly is amazed by Gavin Killea's yearbook cartoons.
14. Amy Graziano looks through a yearbook to gather ideas.
15. Danielle Heckbert, Kallie Montacano, and Casey Bucek type and organize the senior blurbs.

The student council of B-R is made up of students who are dedicated to improving their school. During Thanksgiving every year they run a food drive to help needy families in our towns. Along with feeding our neighbors we help our students find the perfect match with matchmaker. With all the money we raise from Matchmaker it helps students, who have given so much, by rewarding them with a scholarship for their services.

Faculty Retirements

Unitas staff members interviewed the 12 teachers retiring in June 2004. Here are questions and their answers.

1. How many years have you been teaching at B-R?
2. What was your most memorable moment at B-R?
3. What are you going to miss the least? most?
4. What was your funniest moment?
5. What was your most embarrassing moment?
6. What advice could you give to new teachers?
7. How has B-R changed?
8. How is educating different?
9. What are you going to do after retirement?

1. Mr. Maurice Botelho
1. Teaching 1966-1977 and a guidance counselor since then. 2. Scoring three baskets in one of our annual student faculty basketball games. 3. I will not miss the 5:30 am wake up everyday. The most is the kids they have a way of making my age feel young. 4. Trying to play in our annual student faculty basketball game. 5. The day I fell asleep in front of a student as I was listening to him in a counseling session. I was also sick with a cold that day. 6. Treat the kids with respect and be patient. Do not judge them to quickly or at all. 7. Too many students to teach with, the building, and the staff that we have. 8. It is more sophisticated and to complex than it was when I started. 9. Ride my motorcycle, play golf, go to the gym more, travel, and spend more time with my 5 grandsons.

2. Mr. Philip Capen
1. 35 years 2. Making tenure 3. Correcting papers and I will miss the kids the most. 4. I have to keep that a secret 5. I did the pledge with my fly down and my white shirt out. 6. Get involved beyond teaching 7. Bigger classes, larger school, don’t see staff as much as usual. Don’t have much interaction.

3. Ms. Joan Casabian
Ms. Casabian taught Physical Education and coached at B-R for over thirty years. While she coached a variety of sports, her passion was Field Hockey. She inspired her close-knit team to give their all to the game. Any athlete who played under Ms. Casabian will remember her favorite saying, “There is no ‘I’ in team.”

4. Dr. David Chuckran
1. 26 years 2. Superbowl victory- Doug Bessette 3. Waking up at 5:00 am. 4. 5. When I picked up the human body model by the head and it fell on my foot and broke a toe. 6. There are ups and downs, good times and bad, stay the course. 7. The class size, and the number of students has changed greatly since 1977. 8. Standards- standardized tests and accountability- it is good, something I think we needed a long time ago. 9. Take some time off in the summer and go back and work in education- probably on a part-time basis.

5. Mr. William Crane
1. 34 years 2. In a four day span during 1974-1975 our first child was born, we passed papers on our house, and my hockey team won the championship of the 16 team Silver City Tournament. 3. Getting up early, faculty meetings, immature, rude, unmotivated kids. I will miss friends on staff, mature, respectful, motivated students, fun in classroom. 4. Too many to remember, Dick Schneider an English teacher, leaving a lit cigarette on the edge of a lamp table in the teachers room and having it fall into a trash can and start a fire. 5. Too many to remember, 6. Be yourself, don’t take any flack from anyone, have a sense of humor, remember it’s about the kids. 7. Sense of pride present in 70’s and 80’s among staff and students just isn’t the same now. 8. Money has become more important than education. It drives virtually every decision. 9. Sleep late, golf and ski on weekends, and travel.
6. Mr. Stephen Heaslip
1. 37 years. 2. The student rally following September 11th, 2001. 3. Getting to work at 6:45. Colleagues, students, ski trips, and athletic events. 4. Watching the Mr.-B-R competition with Mr. Sarantopoulos and Mr. Kearney as MC and last year’s student-faculty basketball game. 5. Stumbling over a few words when I spoke at graduation two years ago. 6. Never issue ultimatums, make sure you like kids if you want to succeed in this line of work. 7. Much, much, much more crowded, sports teams, and school spirit is much better now, and the way kids dress today is different. 8. Much more teacher accountability, use of technology. 9. I have grandchildren (soon to be five) and I want to play a meaningful role in their lives, I would like to do some traveling with my wife. I hope to read, ski, and golf far more than I am able to at present. I would like to be a community service volunteer in some way and possibly return to part time teaching. Finally I will always think of myself as a part of the B-R family and I will continue support our school in any way possible.

7. Mr. Jackson
1. 34. 2. OCL Championships, I'll miss making friends the most. 6. Get a part time job. 7. Too many students too few teachers. 8. Lack of self discipline in students. 9. Owner of Hyannis Yacht Charter, teach at New England Maritime.

8. Mr. John Lennon
1. 29 years. 2. 1 and class officers ran a fund-raiser. It was a concert performed by the band Southern Comfort. It was great! 3. Paper work that is not germane to teaching English; interaction with students in a variety of different ways on a continued basis will be what I miss. 6. Choose something that you have a passion for only then can you do to work on a continued basis because you want to. 7. Fewer class offerings, fewer full time classroom teachers, more students, no individuality, less concern for the individual student with teacher process. 8. It is paramount in education now to teach for the test. No longer do we have the opportunity to digress into areas of literature that might be of interest to some of our students. Learning for fun is no longer an option. 9. Relax, read all of the books I want to read, I am not going to feel guilty about reading instead of doing school work are two things. My wife and I will visit places we have not been to. Some of my time will still be spent enjoying the company of my wife and just kicking back.

9. Ms. Nora Mantell
1. 34 years. 3. The dust and dirty floor in my classroom. I have asthma and it's gotten worse this year. The malapropisms in kids' themes like: "At the local pet store, my father and I were given some erotic shrimp-like food in a gigantic container that was an excessive amount of money, turtle pellets, and guppy feed fish to choose from." 5. The time I mistook my cat's heart pills for my vitamin, took an overdose, ended up in the emergency ward, and had to put up with intercom messages of "Miss Mantell, please call you veterinarian" from the main office.

10. Ms. Diane McGuire
1. 34 1/2 years. 2. When Jen Grunin, valedictorian of the class of 1999 gave her speech at graduation and thanked me for being her mentor. 3. Deadlines: the people, students, and colleagues that I worked with for years. 4. Trying to demonstrate Polonius hiding behind the arras and I got up on the shelf next to the windows and hid behind the drapes. 5. Accidentally wearing two different shoes, walking into the trash can or desk drawer more times than I can count. 6. The most important part of teaching is to play well and get to know your students and see them as individuals. 7. New English and social studies wing, new gym, two courtyard rooms. 8. Technology access is so quick and easy now, students find answers instead of teachers giving answers. 9. Design and make enough quilts to cover the state of MA, enjoy my garden, and travel.
11. Mr. Jack Phaneuf
1. 31 years. 2. I remember one day Stacy George, a former student, who just graduated from the Savannah School of Art, ran into my room, in the middle of a class, jumped up on a table and pointed at the Calvin College "Persistence" quote and proclaimed: "That's what got me through school...don't forget this." She said bye and left. 3. The relentless schedule, getting up at 5:30 am, and the 20 minute lunch, faculty meetings and in service days; students. 4. Too many to recall...maybe posing for my drawing students with my "Vent-Man" costume. 5. While showing my students how not to use a knife, I lacerated my left arm and had to leave school to get stitches. 6. Love your subject matter, empathize with the teenage students (remembering your own teen years) Learning to articulate clearly what your trying to teach, be patient and above all, be yourself. 7. Not as friendly, reflects our culture. 8. Too much technical stuff required. 9. I'm going to teach privately in my classroom that I made in my barn...and rest.

12. Ms. Kathleen Swann
1. 27 years. 2. When a student says, "You've helped me and have made a difference in my life" 3. The people who make up the B-R community; Getting up every morning at 5 am. 5. When a student said "Mrs. Swann, why are your shoes two different colors?" I never noticed I grabbed the wrong shoes out of my closet. 6. Work hard, challenge your students to be the best they can be. 7. The population had gotten bigger, the building older. 8. Technology has changed the approach to many topics. 9. I'm moving to the Cape and hope to take time to enjoy what lies ahead. Thanks, B-R I'll miss you.

13. Dr. Linda Brouilette
1. 35 years.
Dr. Brouilette started teaching Reading and English and then moved into the Special Education Department. She has devoted countless hours to improving the educational experience for her special students.

The Last Page

The Unitas staff must say good-bye to their long time adviser and friend, Ms. Diane McGuire who will be retiring this year. Ms. McGuire has been a dedicated member of the B-R faculty for nearly thirty-five years. She has taught almost every grade and level in the English Department. Her students will long remember her enthusiasm when teaching Hamlet and Moby Dick. Famous for her props, her Burger King crown helped set the stage for intrigue at Elsinore. Desks transformed into long boats manned by students conveyed the danger and excitement of the hunt for the great white whale.

Ms. McGuire’s enthusiasm for writing led her to re-establish the school newspaper and to take on the challenge of the yearbook which she regards as an historical document recording the lives and times of B-R students and staff. Ms. McGuire also started the Creative Writing Club after students approached her and asked her to be their adviser.

Very early on, Ms. McGuire recognized the contribution technology could make in publications. She was the first to use computers to create the newspaper starting in 1985. In 1993, she transferred that expertise in desktop publishing to the yearbook. She has over the last eleven years she has brought the publication of the yearbook into the twenty-first century by adding pictures in digital format. With her understanding of desktop publishing techniques, she has worked tirelessly to teach her students publishing skills that will help them create yearbooks their fellow students could look upon with pride.

Ms. McGuire leaves with mixed feelings. While she will miss the joy of teaching, she looks forward to retirement. She plans to exercise her creativity in her quilt work. She has many original designs she hopes to turn into fabric art. She also plans to travel for inspiration and enjoyment. We wish her years of happiness in all she does. We will missed here at B-R.
