NINETEEN

UNITAS
When we entered B-R as freshmen we began to share experiences that helped unite us. As the years passed we shared memories of proms and semi-formals; rallies and fund raisers. Whether we won or lost at sporting events, we always shared our enthusiastic B-R spirit. We co-operated in class discussions and helped each other during after school library visits. The memories of these shared experiences will always hold us together

Memories of our younger years cause us to pause and reflect. From making friends, starring in the school play or trick or treating in colorful costumes, we kept busy. With adulthood seeming centuries away, we lived for the day. As we reached our teens, responsibility overwhelmed us, and our carefree attitude slipped away. We faced increased schoolwork, car payments, jobs and college. As we head towards the future, we will bring the shared experience of our younger years with us.

We share many experiences with our friends. We came from two different towns, and at first the people we met in the school corridors were strangers. In time, those strangers became our closest companions. We attended concerts and parties together. We worked together, and we played together. Sometimes we just shared quiet moments. In years to come, as we go our separate ways, we will make new friends, but we will never forget the friends we made and the good times we shared at B-R.

At B-R learning is a shared experience between students and teachers who are always available to lend a helping hand. Math teachers show students how to solve equations. English teachers point out the details in stories and poems. Foreign language teachers encourage a knowledge of world cultures. In history teachers help us understand the past. Art and music teachers develop our creative and artistic sides. In business courses, our teachers prepare us for careers. Physical education acts as a break from academics, as our instructors help us stay in shape. Our teachers guide us and encourage us to fulfill our dreams.

Special moments are shared experiences between friends. Whether we are scoring a goal, or staging a show, we value the friendships we’ve made. We dress in our finest for proms and semi-formals, being sure to capture these times on film. As we proceed into the future, we’ll hold tightly to the memories of Christmas caroling and field trips. Years from now we will reminisce about the experiences we’ve shared and realize that if we could do it again we would.

The Trojan athletes have always proven to be great participants throughout B-R's illustrious athletic history. The current athletes have been no different. In victory and in defeat we always play hard and play to win. Should we lose, however, we keep our heads high and come back to play again with the renewed vigor and will of champions. We have come together from separate teams and created a winning bond. Through our years on the teams we have won more than games, championships, awards, and trophies. We have acquired pride and, most importantly, friends. For the rest of our lives, we will share the experience of Trojan pride as we remember the effort we put into continuing the winning ways at B-R.

The Foreign Language Club travels to Montreal and the Caribbean. The Ski Club travels to the white topped mountains of New Hampshire and Vermont, while our band and chorus perform at Disney World. The Cheerleaders encouraged school spirit at all the games and the Pep Rally. Our school comes together for fundraisers like Donkey Ball. Students on the yearbook work diligently to capture these moments in the Unitas. Everyone is welcome to participate and get involved to enrich our school.

Activities
Dedication

The Class of 1997 is pleased to dedicate this year’s *Unitas* to Mrs. Virginia Ames. The word that comes to mind in describing Mrs. Ames is spirited. She is intensely dedicated to her students, always helping them to succeed. Her free periods and hours after school are spent assisting those students who need help. She has even offered extra help summer sessions at her home for Algebra II students. She truly rises above what is required of her to do all she can to help people.

In addition to her extraordinary teaching skills, Mrs. Ames is an avid supporter of the B-R athletic program. As usual, she was voted teacher with the most school spirit at this year’s Sports Rally. Mrs. Ames has also been a loyal supporter of the yearbook and the student drama and musical productions.

Blessed with a wonderful sense of humor, Mrs. Ames truly loves her job. B-R students and staff will miss her motherly kindness and dedication. We wish her a long and happy retirement.

Ms. Virginia Ames

We Say Goodbye

Two B-R favorites are retiring this year. They are Ms. Anne Sprosty and Mr. Arnie Lopes. Both will be missed for their good humor and dedication to the school. We wish both staff members health and happiness in their retirement years.

For ten years at both the high school and elsewhere in the district, Mr Lopes made sure buildings were maintained properly. His ever cheerful ways will be missed.

Chemistry teacher Ms. Anne Sprosty taught at B-R for 21 years. Always an energetic teacher, she was enthusiastic and involved with her classes. She truly seems to love what she does. Ms. Sprosty plans to enjoy a third childhood with her grandson and to keep on learning.

A state mandated organization, the Gay Straight Alliance is the place where gay and straight students can meet to discuss problems. Under the guidance of Mr. Bowens students discuss how to improve the school's atmosphere so that high school becomes a kind and accepting place for all students.

Peer leaders work hard to teach younger students how to avoid the pitfalls of peer pressure. Peer leaders visit middle schools in an effort to teach children about issues that affect them in high school. By providing a safe and comfortable environment, peer leaders help younger children express their concerns without fear.

Students Against Driving Drunk is an organization which attempts to educate young people about the dangers and consequences of driving while intoxicated.

The purpose of the Diversity Group is to promote cultural awareness and to give support to students and create leaders on multi-ethnic issues. This group takes a stand against prejudice and hatred, while promoting an appreciation and understanding of others.

National Honor Society

Members of the Nippenicket chapter of the National Honor Society have proven themselves to be the most academically talented students in the school. They not only take the most challenging courses the high school offers, but they excel at them as well. Students in the NHS share their wealth of knowledge by volunteering as tutors and by involving themselves in community service projects.

Math Team

If you love the challenge of solving difficult mathematics problems and rigorously exercising your mind, then the math team is the organization for you. Team members work alone and as a group to solve complex problems. This year the team got off to a great start, but struggled at the end of the season, finishing ninth in a twenty-three team league.

Photography Club

The Photography Club is a group of young, talented and enthusiastic artists. Members learn about cameras, lenses, types of film, photography techniques and dark room skills. They contribute to U.S. First and other organizations around the school and compete for prizes in the annual photography contest.

World Affairs Club

The World Affairs Club offers students an opportunity to study national and international affairs. Students participate in mock trials, the Model United Nations and the Model Congress.

Future Teachers of America

Throughout the year the Future Teachers of America was an active organization. With Mr. Capen as its advisor the club once again contributed greatly to both the school and the community. During both sessions of Parent-Teacher conferences, members of the FTA acted as guides, shepherding parents unfamiliar to the school to their destinations. The club also organized a Christmas toy collection to help needy children have a special holiday. In addition the club joined with the chorus to entertain the elderly.

1. Joining the B-R chorus, members of the FTA gather at a Raynham Senior center for a caroling session.
2. FTA members: Row 1: Drew Shaw, Jen Ellis, Darryl Copeland. Row 2: Mary Reardon, Julie Bacon, Julie White, Gina Blanchette, Michael Stafford. Row 3: Jen Mallet, Kelly Govain, Nicole Coyman, Jessica Ellis.
3. Mr. Capen enthusiastically demonstrates a child's reaction on receiving a new Garfield toy.
4. Julie White, Julie Bacon and Abby Serlinga prepare carnations for delivery.
5. Some FTA members pause for a group shot before they go Christmas caroling.
The FLC has grown over the years to become one of the most popular organizations in our school. With Mr. Diaz in charge, the club explores foreign cultures. The club traveled to Montreal where students enjoyed the historical sights and underground malls. The club also traveled to the Caribbean where the group can practice their Spanish. The club also visits the Museum of Fine Arts every year and hosts an annual fiesta at Christmas.

1. Mr. Peabody leads the way to the fine cuisine at the FLC's fiesta.
2. The FLC samples its creations.
3. In Montreal, Christine Smith and Ashley Wright prepare to go sightseeing.
4. Julie Dembro, Kara Chase and Kate Malone enjoy the scenery at Puerta Plata.
5. Hola! It's the Foreign language Club!
1. Mrs. Calef proudly shows her team spirit.
2. Tom Calef and Bernadette O'Conner demonstrate the controlling functions of the TJ² robot.
3. The result of seven months of determination and hard work: the TJ² robot!!
5. Ken Campbell, Melissa Ranney, and Mike Kulababa hold up the finished product.
TJ² is part of FIRST, a national competition in which the school is enthusiastically involved. Students and teachers teamed up with Johnson and Johnson to produce a robot for competition. This year TJ² travels to New Jersey to compete in the nationals. To bring the TJ² robot to New Jersey took a lot of effort and fundraising. Throughout this program, there has been a tremendous amount of bonding between the students, teachers and corporate sponsors. This program not only fosters an interest in science and technology, but it also builds character and fosters self-esteem.

7. Evan Watson and Donnie Wolent experiment with the base of the robot.
8. Ted Sargent displays the technicalities of the game.
9. Dennis Joy applies the TJ² logo to the shirts.
10. Jason Boyd and Mr. Phaneuf design the logo for the robot and the team uniforms.
11. The TJ² team stands proudly.
Five years ago, science teachers Mrs. Calef and Dr. Chuckran established the Science Olympiad Team to interest students in science. Now under the direction of Mrs. Anania, the team ended the year in third place of the seven teams in the South Eastern Massachusetts Science League. Captain Amy Kirkcaldy has taken the young group under her wing and guided them to participating in the state championship at Framingham State College. This club is sure to have a long and successful future.

2. Jim Moore, Amy Kirkcaldy, Jen Sousa and Amit Malik strive to perfect their project.
3. Rebecca Linhorst and Jon DeAguiar discuss their ideas.
4. Druva Shah and Brendon Harman admire a job well done.
5. Mrs. Anania demonstrates her amazing techniques to John McCann.
Physical fitness is an important part of a healthy lifestyle. The members of the Weightlifting Club all share a common interest in keeping their bodies healthy and strong. Weight training is an ideal way for students to have fun while staying fit. With the help of Mr. Lennon, members learn the proper way to use equipment. Whether the students are off season athletes looking to increase strength and endurance, health conscious individuals, or just trying to get ready for a summer at the beach, the Weightlifting Club can be a rewarding way to exercise and have fun.

1. Under the watchful eye of his father, Sean Lennon lifts 275 pounds.
2. Christos Kapoutsos works hard on lat work.
3. Ricardo Medina spots as Danielle Dosreis executes her bench presses.
4. As Mike Woodruff looks on, Ed Casabien concentrates hard on his squats.
5. Nicole Conlon works hard on her reverse leg curls.
If you wanted to see snow this year, you had to head for the mountains of New Hampshire. Fortunately, the Ski Club provided many opportunities to enjoy the fluffy white stuff. Under the leadership of Mr. Heaslip and Mr. Moscardelli, the Ski Club has become one of the largest and most popular organizations at B-R. In addition to its many trips, the club offers students the chance to learn how to ski, rent equipment or perfect their skiing or snowboarding skills.

1. Ah, the dilemma--snowboard or skis?
2. Shane Slater and Tom Holmes look forward to a fun filled day of skiing.
3. Advisors Mr. Moscardelli and Mr. Heaslip along with chaperones Ms. Chase-Ferioli and Mr. Fournier, enjoy a day on the slopes.
4. Smiling in anticipation of a day of downhill fun are Erin Mitchell, Jen Lozzi and Jessica Fama.
5. Some of the members of the Ski Club gather for a picture.
Publications

Publications at B-R include a wide variety of projects. Junior Nicole Coyman was in charge of the weekly calendar that advertised activities, sports, special events, announcements, and included seasonal poems, quotes and graphics. Julie Cunningham as editor of the Regional Sound formulated story ideas, encouraged reporters, and designed the layout of the paper. Dan Taylor and Darryl Brophy continue the work they start last year with the literary magazine planning an issue to be printed in the spring. Andy Buck was in charge of the program for this year's musical Oklahoma! Students were also responsible for the B-R Newsletter.

2. Darryl Brophy and Dan Taylor, editors of the literary magazine for the second year, plan the 1997 issue.
3. Consulting the information on their official clipboard, Becca Linhorst and Kaitlyn Nadeau are hot on the trail of a story.
4. Nicole Coyman puts the finishing touches on the B-R Weekly Calendar.
5. Working on the layout, Julie Cunningham fits articles onto pages.
6. Editors Julie Cunningham reviews an issue of the Regional Sound with writers Jen Grunin, Jen Stack, and Andrea Frith.
1. Adam Bossi, Justine Penney, Dennis Joy and Ali McMahon sort pictures for the faculty pages.
2. After three years on the staff, editors Andy Buck and Patrick Hutchinson have put their experience to good use.
3. Even for experts like Becky Dower and Kristy Cronin, selecting pictures can be difficult.
4. Marcie Cabral enjoys the many hours of hard work on the yearbook.
5. Nicole Beatrice reads senior messages to Sandra Pacheco who types them into the computer.
6. Julie White watches while Nicole Coyman carefully cuts the senior pictures.
7. Advisors Ms. McGuire and Ms. Burton have survived yet another edition of the Unitas.
Starting in the spring of 1996, the staff of the Unitas planned the publication of the yearbook. For each section, Editors Andy Buck and Patrick Hutchinson designed the format and choose graphics and text fonts. Pictures were planned, scheduled and taken. Once they were developed, pictures were selected and cropped to size. After selecting pictures students wrote snappy captions describing the action and identify the people. Kristy Cronin, Becky Dower, Jackie Cipriani, Sandra Pacheco, and Nicole Beatrice, were particularly adept at these tasks. Staff members wrote text recording events and activities of every club, class, and sport. Justine Penney, Ali McMahon, Dennis Joy, and Adam Bossi spent weeks on the faculty section. All information had to be typed into the computer and set on the page layout. Julie White, Kaitlyn Nadeau and Nicole Coyman spent months on the keyboard and proofing senior messages. Julie Baker proved that even underclassmen can become expert proofreaders. Marcie Cabral proved a Jill-of-all-trades who devoted hours of her free time on the publication.

8. Patrick Hutchinson shows Becca Linhorst how to crop pictures.

**TJ² Triumphs!!**

On March 20-22, TJ2 competed in the Mid-Atlantic Regional First--The Competition Robotics Meet held at Rutgers University in New Brunswick, New Jersey. TJ² won second place in a hard fought battle for first place in a tournament consisting of thirty-five highly competitive schools.

Over three days, the team's creativity, strategy and intelligence were challenged. Offensive power and defensive sharpness were the keys to the team's success. On Friday the TJ² team scored 160 points in a single round, the highest score in the entire tournament. It was also the highest score of any of the three regional competitions. The National Finals will be held at Disney World in Orlando, Florida on April 9-12, and TJ² hopes to be there to win it all.

1. Team members go wild as the first win in the final match of two out of three comes to an end. Engineer Chris McDowell slaps hands as driver Evan Watson dances and sings.
2. The team looks in awe during the award ceremony at the very final match which was lost by an amazing half inch.
3. Mike Kulibaba rejoices as he passes around the second place trophy.
4. The majority of the teams from all over rally for our robot as TJ² goes over the top for a 24 to 2 victory.
5. All outside Rutgers University in New Jersey team members are psyched for the competition.
